3.31 com.example.sebastian.tindertp.services.MyBroadCastReceiver Class Reference . . . 42
3.32 com.example.sebastian.tindertp.services.MyGcmListenerService Class Reference . . . 43
3.32.1 Member Function Documentation . . . 44
3.32.1.1 onMessageReceived(String from, Bundle data) . . . 44
3.32.1.2 sendNotification(String fromUser, String message) . . . 44
3.33 com.example.sebastian.tindertp.services.MyInstanceIDListenerService Class Reference . . . 44
3.34 com.example.sebastian.tindertp.gestureTools.OnSwipeTapTouchListener Class Reference . . . 45
3.34.1 Member Function Documentation . . . 47
3.34.1.1 onSwipeLeft() . . . 47
3.35 com.example.sebastian.tindertp.services.PriorActivitiesUpdater Class Reference . . . 47
3.36 com.example.sebastian.tindertp.ProfileActivity Class Reference . . . 48
3.36.1 Member Data Documentation . . . 49
3.36.1.1 txtView . . . 49
3.37 com.example.sebastian.tindertp.services.RegistrationIntentService Class Reference . . . 49
3.38 com.example.sebastian.tindertp.RegistryActivity Class Reference . . . 50
3.39 com.example.sebastian.tindertp.internetTools.RequestResponseClient Class Reference . . . 52
3.40 com.example.sebastian.tindertp.chatListTools.RowItem Class Reference . . . 53
3.41 com.example.sebastian.tindertp.diskTools.SaveFileInBackground Class Reference . . . 53
3.42 com.example.sebastian.tindertp.chatTools.ScrollListMaintainer Class Reference . . . 54
3.42.1 Detailed Description . . . 54
3.43 com.example.sebastian.tindertp.SelectLoginOrRegistryActivity Class Reference . . . 54
3.43.1 Member Function Documentation . . . 55
3.43.1.1 goToLogin(View v) . . . 55
3.43.1.2 goToRegistry(View v) . . . 55
3.44 com.example.sebastian.tindertp.application.TinderTP Class Reference . . . 56
3.45 com.example.sebastian.tindertp.UrlActivity Class Reference . . . 57
3.46 com.example.sebastian.tindertp.internetTools.UrlArrayAdapter Class Reference . . . 58
3.46.1 Detailed Description . . . 59
3.46.2 Member Data Documentation . . . 59
3.46.2.1 end . . . 59
3.46.2.2 i . . . 59
3.47 com.example.sebastian.tindertp.chatListTools.CustomAdapter.ViewHolder Class Reference . . . 59
3.48 com.example.sebastian.tindertp.commonTools.ViewIdGenerator Class Reference . . . 60

Chapter 1

Hierarchical Index

1.1 Class Hierarchy

This inheritance list is sorted roughly, but not completely, alphabetically:

com.example.sebastian.tindertp.commonTools.ActivityStarter . . . 5
com.example.sebastian.tindertp.commonTools.AdapterHashMap . . . 5
com.example.sebastian.tindertp.commonTools.ArraySerialization . . . 6
com.example.sebastian.tindertp.chatTools.ChatMessage . . . 11
com.example.sebastian.tindertp.chatTools.ChatTextBuilder . . . 11
com.example.sebastian.tindertp.chatTools.ClientBuilder . . . 12
com.example.sebastian.tindertp.commonTools.Common . . . 14
com.example.sebastian.tindertp.commonTools.ConnectionStruct . . . 17
com.example.sebastian.tindertp.commonTools.DataThroughActivities . . . 20
com.example.sebastian.tindertp.commonTools.HeaderBuilder . . . 28
com.example.sebastian.tindertp.ImageTools.ImageBase64 . . . 28
com.example.sebastian.tindertp.commonTools.ImagesPosition . . . 30
com.example.sebastian.tindertp.internetTools.MediaDownloader . . . 39
  com.example.sebastian.tindertp.internetTools.ConnectionTester . . . 17
  com.example.sebastian.tindertp.internetTools.ImageDownloaderClient . . . 29
  com.example.sebastian.tindertp.internetTools.InfoDownloaderClient . . . 31
  com.example.sebastian.tindertp.internetTools.RequestResponseClient . . . 52
com.example.sebastian.tindertp.commonTools.Messages . . . 41
OnItemClickListener
  com.example.sebastian.tindertp.ChatListActivity . . . 9
PageTransformer
  com.example.sebastian.tindertp.animationTools.DepthPageTransformer . . . 21
com.example.sebastian.tindertp.chatListTools.RowItem . . . 53
com.example.sebastian.tindertp.diskTools.SaveFileInBackground . . . 53
com.example.sebastian.tindertp.chatTools.ScrollListMaintainer . . . 54
com.example.sebastian.tindertp.internetTools.UrlArrayAdapter . . . 58
com.example.sebastian.tindertp.chatListTools.CustomAdapter.ViewHolder . . . 59
com.example.sebastian.tindertp.commonTools.ViewIdGenerator . . . 60
Activity
  com.example.sebastian.tindertp.FullScreenViewActivity . . . 25
AppCompatActivity
  com.example.sebastian.tindertp.ChatActivity . . . 6
  com.example.sebastian.tindertp.ChatListActivity . . . 9
  com.example.sebastian.tindertp.InterestsActivity . . . 32
  com.example.sebastian.tindertp.LoginActivity . . . 33

com.example.sebastian.tindertp.MainActivity 35
com.example.sebastian.tindertp.MatchingActivity 36
com.example.sebastian.tindertp.ProfileActivity 48
com.example.sebastian.tindertp.RegistryActivity 50
com.example.sebastian.tindertp.SelectLoginOrRegistryActivity 54
com.example.sebastian.tindertp.UrlActivity 57
Application
com.example.sebastian.tindertp.application.TinderTP 56
ArrayAdapter
com.example.sebastian.tindertp.chatTools.ChatArrayAdapter 8
AsyncTask
com.example.sebastian.tindertp.internetTools.DownloadInBackground 23
BaseAdapter
com.example.sebastian.tindertp.chatListTools.CustomAdapter 19
BroadcastReceiver
com.example.sebastian.tindertp.services.MyBroadCastReceiver 42
com.example.sebastian.tindertp.services.PriorActivitiesUpdater 47
GcmListenerService
com.example.sebastian.tindertp.services.MyGcmListenerService 43
InstanceIDListenerService
com.example.sebastian.tindertp.services.MyInstanceIDListenerService 44
IntentService
com.example.sebastian.tindertp.services.RegistrationIntentService 49
OnTouchListener
com.example.sebastian.tindertp.gestureTools.OnSwipeTapTouchListener 45
PagerAdapter
com.example.sebastian.tindertp.animationTools.FullScreenImageAdapter 24
SimpleOnGestureListener
com.example.sebastian.tindertp.gestureTools.OnSwipeTapTouchListener.GestureListener 27

Chapter 2

Class Index

2.1 Class List

Here are the classes, structs, unions and interfaces with brief descriptions:

com.example.sebastian.tindertp.commonTools.ActivityStarter . . . 5
com.example.sebastian.tindertp.commonTools.AdapterHashMap . . . 5
com.example.sebastian.tindertp.commonTools.ArraySerialization . . . 6
com.example.sebastian.tindertp.ChatActivity . . . 6
com.example.sebastian.tindertp.chatTools.ChatArrayAdapter . . . 8
com.example.sebastian.tindertp.ChatListActivity . . . 9
com.example.sebastian.tindertp.chatTools.ChatMessage . . . 11
com.example.sebastian.tindertp.chatTools.ChatTextBuilder . . . 11
com.example.sebastian.tindertp.chatTools.ClientBuilder . . . 12
com.example.sebastian.tindertp.commonTools.Common . . . 14
com.example.sebastian.tindertp.commonTools.ConnectionStruct . . . 17
com.example.sebastian.tindertp.internetTools.ConnectionTester . . . 17
com.example.sebastian.tindertp.chatListTools.CustomAdapter . . . 19
com.example.sebastian.tindertp.commonTools.DataThroughActivities . . . 20
com.example.sebastian.tindertp.animationTools.DepthPageTransformer
Implementa la animacion de solapado de imagenes . . . 21
com.example.sebastian.tindertp.internetTools.DownloadInBackground . . . 23
com.example.sebastian.tindertp.animationTools.FullScreenImageAdapter . . . 24
com.example.sebastian.tindertp.FullScreenViewActivity . . . 25
com.example.sebastian.tindertp.gestureTools.OnSwipeTapTouchListener.GestureListener . . . 27
com.example.sebastian.tindertp.commonTools.HeaderBuilder . . . 28
com.example.sebastian.tindertp.ImageTools.ImageBase64 . . . 28
com.example.sebastian.tindertp.internetTools.ImageDownloaderClient . . . 29
com.example.sebastian.tindertp.commonTools.ImagesPosition . . . 30
com.example.sebastian.tindertp.internetTools.InfoDownloaderClient . . . 31
com.example.sebastian.tindertp.InterestsActivity . . . 32
com.example.sebastian.tindertp.LoginActivity . . . 33
com.example.sebastian.tindertp.MainActivity . . . 35
com.example.sebastian.tindertp.MatchingActivity
Activity donde se matchean las personas . . . 36
com.example.sebastian.tindertp.internetTools.MediaDownloader . . . 39
com.example.sebastian.tindertp.commonTools.Messages . . . 41
com.example.sebastian.tindertp.services.MyBroadCastReceiver . . . 42
com.example.sebastian.tindertp.services.MyGcmListenerService . . . 43
com.example.sebastian.tindertp.services.MyInstanceIDListenerService . . . 44

com.example.sebastian.tindertp.gestureTools.OnSwipeTapTouchListener 45
com.example.sebastian.tindertp.services.PriorActivitiesUpdater 47
com.example.sebastian.tindertp.ProfileActivity 48
com.example.sebastian.tindertp.services.RegistrationIntentService 49
com.example.sebastian.tindertp.RegistryActivity 50
com.example.sebastian.tindertp.internetTools.RequestResponseClient 52
com.example.sebastian.tindertp.chatListTools.RowItem 53
com.example.sebastian.tindertp.diskTools.SaveFileInBackground 53
com.example.sebastian.tindertp.chatTools.ScrollListMaintainer 54
com.example.sebastian.tindertp.SelectLoginOrRegistryActivity 54
com.example.sebastian.tindertp.application.TinderTP 56
com.example.sebastian.tindertp.UrlActivity 57
com.example.sebastian.tindertp.internetTools.UrlArrayAdapter
Adaptador del array de urls 58
com.example.sebastian.tindertp.chatListTools.CustomAdapter.ViewHolder 59
com.example.sebastian.tindertp.commonTools.ViewIdGenerator 60

Chapter 3

Class Documentation

3.1 com.example.sebastian.tindertp.commonTools.ActivityStarter Class Reference

Static Public Member Functions

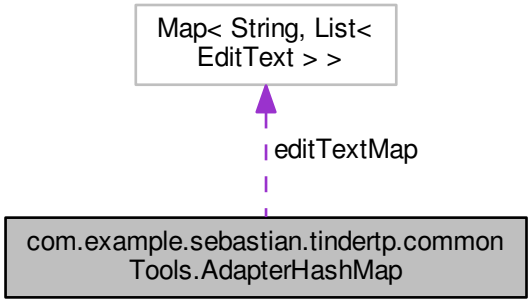
- static void **start** (Context context, Class<?> newActivity)
- static void **startClear** (Context context, Class<?> newAct)

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/commonTools/ActivityStarter.java

3.2 com.example.sebastian.tindertp.commonTools.AdapterHashMap Class Reference

Collaboration diagram for com.example.sebastian.tindertp.commonTools.AdapterHashMap:



Public Member Functions

- void **put** (String key, EditText editText)
- EditText **getLast** (String key)
- boolean **hasKey** (String hint)

Private Attributes

- Map< String, List< EditText > > **editTextMap**

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/commonTools/AdapterHashMap.java

3.3 com.example.sebastian.tindertp.commonTools.ArraySerialization Class Reference

Static Public Member Functions

- static void **persistUserAndMssg** (Context ctx, String user, String mssg)
- static void **deleteStringFromArray** (Context context, String userToRemove)
- static boolean **hasPersistedMssg** (Context ctx)
- static ArrayList< String > **getPersistedArray** (Context context, String key)

Static Private Member Functions

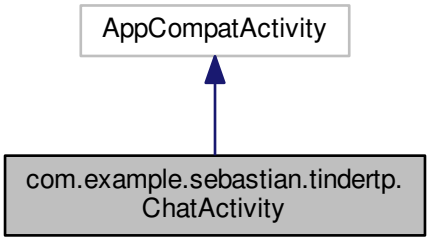
- static void **setStringArrayinPref** (Context ctx, String key, List< String > values)
- static void **pushStringinPref** (Context context, String key, String value)

The documentation for this class was generated from the following file:

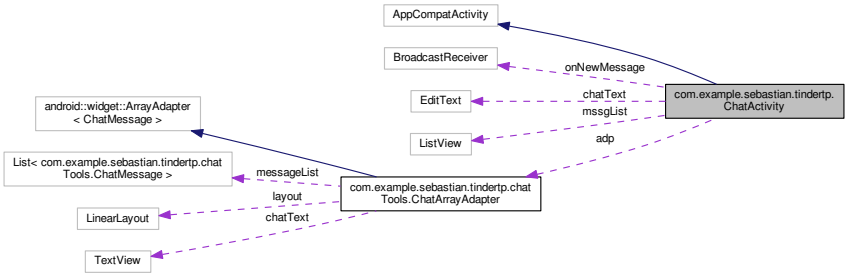
- app/src/main/java/com/example/sebastian/tindertp/commonTools/ArraySerialization.java

3.4 com.example.sebastian.tindertp.ChatActivity Class Reference

Inheritance diagram for com.example.sebastian.tindertp.ChatActivity:



Collaboration diagram for com.example.sebastian.tindertp.ChatActivity:



Public Member Functions

- boolean **onCreateOptionsMenu** (Menu menu)
- void **moreMssg** (View v)
- boolean **onOptionsItemSelected** (MenuItem item)
- void **onConfigurationChanged** (Configuration newConfig)

Protected Member Functions

- void **onCreate** (Bundle savedInstanceState)
- void **onResume** ()
- void **onPause** ()

Private Member Functions

- boolean **sendChatMessage** ()
- void **setBackgroundOnOrientation** (int orientation)

Private Attributes

- ChatArrayAdapter **adp**
- ListView **mssgList**
- EditText **chatText**
- BroadcastReceiver **onNewMessage**

3.4.1 Member Data Documentation

3.4.1.1 BroadcastReceiver com.example.sebastian.tindertp.ChatActivity.onNewMessage [private]

Initial value:

```
= new BroadcastReceiver() {

        @Override
        public void onReceive(Context context, Intent intent) {

            String message = intent.getStringExtra("message");
            String user = intent.getStringExtra("user");

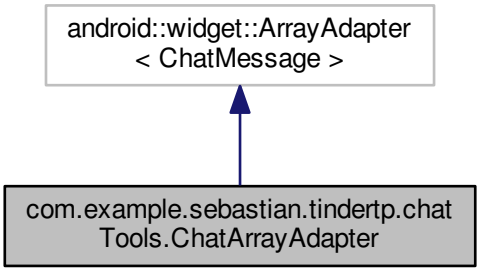
            if(message!=null && user != null) {
                adp.add(new ChatMessage(true, message));
            }
        }
    }
```

The documentation for this class was generated from the following file:

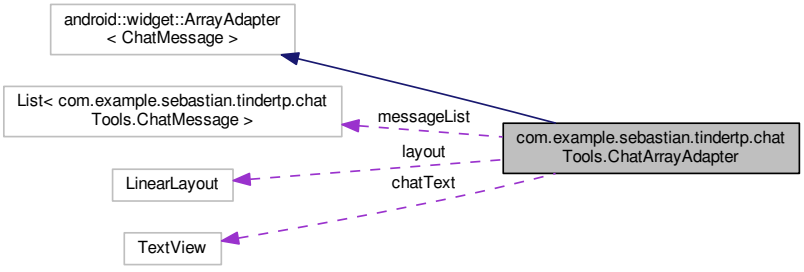
- app/src/main/java/com/example/sebastian/tindertp/ChatActivity.java

3.5 com.example.sebastian.tindertp.chatTools.ChatArrayAdapter Class Reference

Inheritance diagram for com.example.sebastian.tindertp.chatTools.ChatArrayAdapter:



Collaboration diagram for com.example.sebastian.tindertp.chatTools.ChatArrayAdapter:



Public Member Functions

- **ChatArrayAdapter** (Context context, int textViewResourceId)
- int **size** ()
- void **add** (int index, ChatMessage object)
- void **add** (ChatMessage object)
- int **getCount** ()
- ChatMessage **getItem** (int index)
- View **getView** (int position, View ConvertView, ViewGroup parent)

Private Attributes

- TextView chatText
- List< ChatMessage > **messageList** = new ArrayList<ChatMessage>()
- LinearLayout **layout**

3.5.1 Detailed Description

Adaptador para los mensajes del Chat

3.5.2 Member Data Documentation

3.5.2.1 TextView com.example.sebastian.tindertp.chatTools.ChatArrayAdapter.chatText [private]

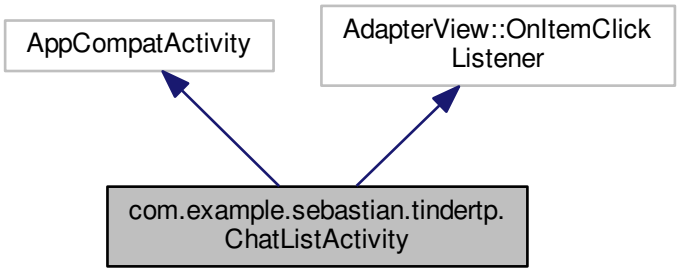
Texto del mensaje

The documentation for this class was generated from the following file:

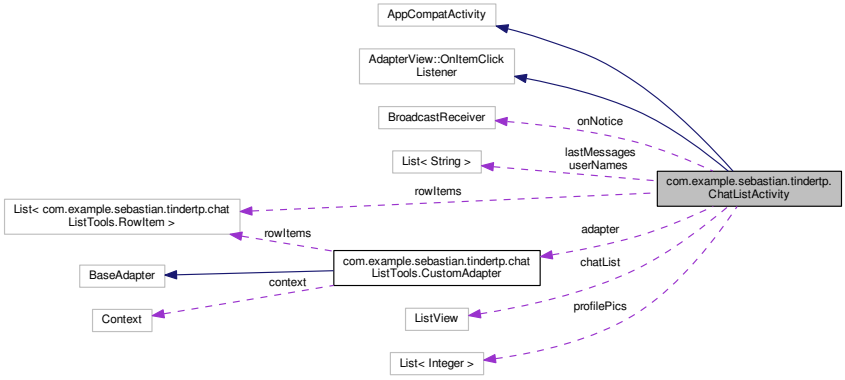
- app/src/main/java/com/example/sebastian/tindertp/chatTools/ChatArrayAdapter.java

3.6 com.example.sebastian.tindertp.ChatListActivity Class Reference

Inheritance diagram for com.example.sebastian.tindertp.ChatListActivity:



Collaboration diagram for com.example.sebastian.tindertp.ChatListActivity:



Public Member Functions

- void **buildRowItems** ()
- void **onPause** ()
- void **onResume** ()
- void **onItemClick** (AdapterView<?> parent, View view, int position, long id)
- void **updateListView** (final int index, final boolean isBold)
- void **addTransmitterToMssg** (int index, String transmitter, String message)
- void **clearRows** ()
- void **haveToUpdate** (int index)

Protected Member Functions

- void **onCreate** (Bundle savedInstanceState)

Private Member Functions

- void **initMessages** ()
- void **getLastMessages** ()
- List< String > **getUserNames** ()
- List< Integer > **getProfilePics** ()
- void **restoreFonts** (int position)
- void **startChat** (String userName)
- void **updatePriorActivities** (String user)
- int **updateUserLastMessage** (String user, String message)

Private Attributes

- List< RowItem > **rowItems**
- List< String > **userNames**
- List< Integer > **profilePics**
- List< String > **lastMessages**
- ListView **chatList**
- boolean [ ] **haveToUpdate**
- int **lastItemSelected**
- boolean **paused**
- String **user**
- CustomAdapter **adapter**
- BroadcastReceiver **onNotice**

3.6.1 Member Data Documentation

3.6.1.1 BroadcastReceiver com.example.sebastian.tindertp.ChatListActivity.onNotice [private]

Initial value:

```
= new BroadcastReceiver() {

        @Override
        public void onReceive(Context context, Intent intent) {

            String message = intent.getStringExtra("message");
            String user = intent.getStringExtra("user");

            if(message!=null && user != null) {

                int index = updateUserLastMessage(user,message);
                haveToUpdate[index] = true;
                updateListView(index, true);
            }
        }
    }
```

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/ChatListActivity.java

3.7 com.example.sebastian.tindertp.chatTools.ChatMessage Class Reference

Public Member Functions

- **ChatMessage** (boolean left, String message)

Public Attributes

- boolean **left**
- String **message**

3.7.1 Detailed Description

Clase chat de un mensaje.

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/chatTools/ChatMessage.java

3.8 com.example.sebastian.tindertp.chatTools.ChatTextBuilder Class Reference

Static Public Member Functions

- static void **chatEditor** (EditText chatText, Context ctx)

3.8.1 Detailed Description

Builder que prepara un ChatText programaticamente.

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/chatTools/ChatTextBuilder.java

3.9 com.example.sebastian.tindertp.chatTools.ClientBuilder Class Reference

Classes

- class **GetMessagesClient**

Static Public Member Functions

- static RequestResponseClient build (final ChatListActivity act, final List< String > userNames, final String userFrom)
- static RequestResponseClient build (Activity context, final ChatArrayAdapter adp)
- static RequestResponseClient build (Activity context, final ChatArrayAdapter adp, final EditText chatText)
- static RequestResponseClient build (Activity context, final ChatArrayAdapter adp, final ListView mssgList)

Static Private Member Functions

- static void **init** (Activity context)

Static Private Attributes

- static String user
- static String url
- static String token
- static String chatName

3.9.1 Detailed Description

Construye el cliente para la descarga de Mensajes.

3.9.2 Member Function Documentation

3.9.2.1 static RequestResponseClient com.example.sebastian.tindertp.chatTools.ClientBuilder.build (final ChatListActivity *act,* final List< String > *userNames,* final String *userFrom*) [inline], [static]

Builder de un cliente para ChatListActivity, y luego ChatList se encarga de recargar su vista.

3.9.2.2 static RequestResponseClient com.example.sebastian.tindertp.chatTools.ClientBuilder.build (Activity *context,* final ChatArrayAdapter *adp*) [inline], [static]

Builder de un cliente para chat, en este caso el adapter se encarga de actualizar la vista de ChatActivity.

3.9.2.3 static RequestResponseClient com.example.sebastian.tindertp.chatTools.ClientBuilder.build (Activity *context,* final ChatArrayAdapter *adp,* final EditText *chatText*) [inline], [static]

Builder de un cliente que descarga y luego avisa a las vistas de las actividades anteriores se actualicen.

3.9.2.4 static RequestResponseClient com.example.sebastian.tindertp.chatTools.ClientBuilder.build (Activity *context,* final ChatArrayAdapter *adp,* final ListView *mssgList*) [inline], [static]

Builder de un cliente que luego de la descarga,

- si no tiene mas mensajes actualiza la vista de ChatActivity, que como resultado cambie el icono de barra.
- si tiene mensajes genera una animacion con el icono de barra.

3.9.3 Member Data Documentation

3.9.3.1 String com.example.sebastian.tindertp.chatTools.ClientBuilder.chatName [static], [private]

Usuario de la persona con la que se esta chateando

3.9.3.2 String com.example.sebastian.tindertp.chatTools.ClientBuilder.token [static], [private]

Token que devuelve el server.

3.9.3.3 String com.example.sebastian.tindertp.chatTools.ClientBuilder.url [static], [private]

Url del server

3.9.3.4 String com.example.sebastian.tindertp.chatTools.ClientBuilder.user [static], [private]

Usuario al que pertenece la app

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/chatTools/ClientBuilder.java

3.10 com.example.sebastian.tindertp.commonTools.Common Class Reference

Static Public Member Functions

- static boolean **userAndPass_OK** (EditText user, EditText password, TextView text)
- static void **clearLoginSaved** (Context context)
- static boolean **optionSelectedItem** (MenuItem item, Context context)

Static Public Attributes

- static final String **PREF_FILE_NAME** = "mypreferences"
- static final String **FAIL** = "fail"
- static final String GET = "GET"
- static final String PUT = "PUT"
- static final String POST = "POST"
- static final String TEST = "/test"
- static final String LOGIN = "/login"
- static final String REGISTER = "/registro"
- static final String MESSAGES = "/mensajes"
- static final String CHAT = "/chat"
- static final String IA = "file:///android_asset/IA.gif"
- static final String DOTS = "file:///android_asset/dots.gif"
- static final String **PROFILE_IMG_KEY** = "profileFile"
- static final String **URL_KEY** = "url"
- static final String USER_KEY = "Usuario"
- static final String PASS_KEY = "Password"
- static final String USER1 = "Usuario1"
- static final String USER2 = "Usuario2"
- static final String DESDE = "Desde"
- static final String CANT = "Cantidad"
- static final String MAX_MESSAGES = "10"
- static final String TOKEN = "Token"
- static final String RECEPTOR = "Receptor"
- static final String TOKEN_GCM = "TokenGCM"
- static final String **IMG_POS_KEY** = "position"
- static final String **IMG_KEY** = "images"
- static final String **MSSG_KEY** = "MSSG"
- static final String **USER_MSG_KEY** = "USER_MSG"
- static final int **BUFF_SIZE** = 8192
- static final int **MAX_CHARS** = 30
- static final int **MIN_CHARS** = 5
- static final int **MAX_MSSG_NOTIF** = 6

Static Private Member Functions

- static boolean **userOrPassAreEmpty** (String user, String password, TextView message)
- static boolean **userOrPassLong** (String user, String pass, TextView message)

3.10.1 Detailed Description

Contiene principalmente todas las variables en strings necesarias para una conexcion, headers y sus keys. Reglas para registrar usuarios.

3.10.2 Member Data Documentation

3.10.2.1 final String com.example.sebastian.tindertp.commonTools.Common.CANT = "Cantidad" [static]

Vars para la conexion url

3.10.2.2 final String com.example.sebastian.tindertp.commonTools.Common.CHAT = "/chat" [static]

Vars para la conexion url

3.10.2.3 final String com.example.sebastian.tindertp.commonTools.Common.DESDE = "Desde" [static]

Vars para la conexion url

3.10.2.4 final String com.example.sebastian.tindertp.commonTools.Common.DOTS = "file:///android_asset/dots.gif" [static]

Vars para la ScreenSplash

3.10.2.5 final String com.example.sebastian.tindertp.commonTools.Common.GET = "GET" [static]

Vars para la conexion url

3.10.2.6 final String com.example.sebastian.tindertp.commonTools.Common.IA = "file:///android_asset/IA.gif" [static]

Vars para la conexion url

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/commonTools/Common.java

3.11 com.example.sebastian.tindertp.commonTools.ConnectionStruct Class Reference

Public Member Functions

- **ConnectionStruct** (String path, String request, String url)

Public Attributes

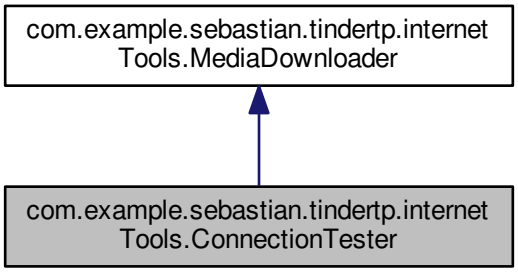
- String **path**
- String **URL**
- String **requestMethod**

The documentation for this class was generated from the following file:

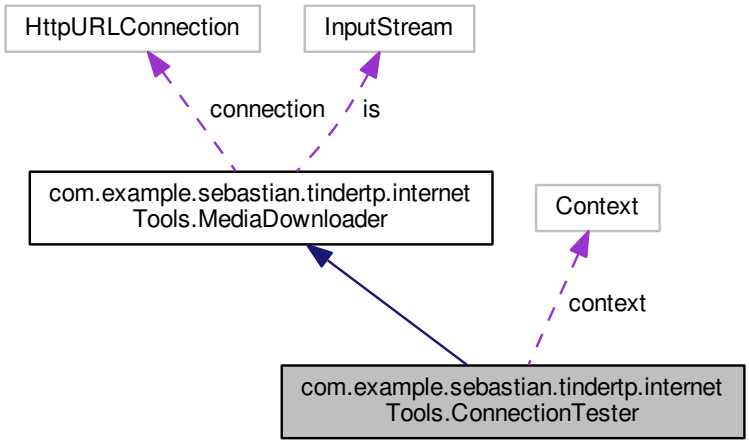
- app/src/main/java/com/example/sebastian/tindertp/commonTools/ConnectionStruct.java

3.12 com.example.sebastian.tindertp.internetTools.ConnectionTester Class Reference

Inheritance diagram for com.example.sebastian.tindertp.internetTools.ConnectionTester:



Collaboration diagram for com.example.sebastian.tindertp.internetTools.ConnectionTester:



Public Member Functions

- **ConnectionTester** (Context context, String url, String path)
- void **showText** (String message)
- void **runInBackground** ()

Static Public Attributes

- static final String **NO_NAME** = "NO_NAME"
- static final String **NO_PASS** = "NO_PASS"

Private Member Functions

- void **login** (String user, String password)

Private Attributes

- Context **context**
- String **url**
- String **contentAsString**

Additional Inherited Members

3.12.1 Detailed Description

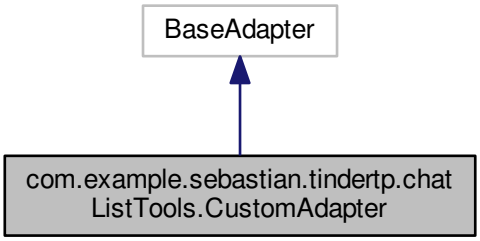
Conexion rapida sin Loguear para verificar que el server este activo y asi poder saltar algunas activities.

The documentation for this class was generated from the following file:

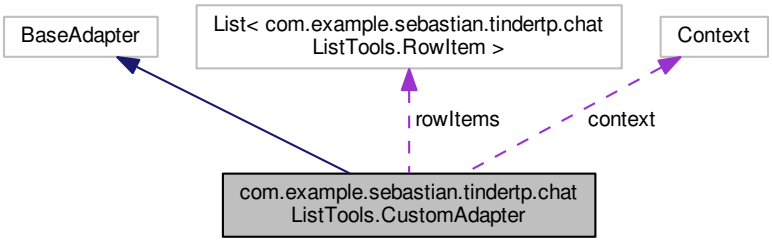
- app/src/main/java/com/example/sebastian/tindertp/internetTools/ConnectionTester.java

3.13 com.example.sebastian.tindertp.chatListTools.CustomAdapter Class Reference

Inheritance diagram for com.example.sebastian.tindertp.chatListTools.CustomAdapter:



Collaboration diagram for com.example.sebastian.tindertp.chatListTools.CustomAdapter:



Classes

- class ViewHolder

Public Member Functions

- **CustomAdapter** (Context context, List< RowItem > rowItems)
- void updateBold (List< RowItem > newRows, int index, boolean isBold)
- void restore ()
- int **getCount** ()
- Object **getItem** (int position)
- long **getItemId** (int position)
- View **getView** (int position, View convertView, ViewGroup parent)

Private Attributes

- int updatedIndex
- boolean **updated**

3.13.1 Detailed Description

Adaptador para ChatList, se encarga de preparar las Views para el ChatList

3.13.2 Member Function Documentation

3.13.2.1 void com.example.sebastian.tindertp.chatListTools.CustomAdapter.restore ( ) [inline]

Restaura la negrita a modo normal

3.13.2.2 void com.example.sebastian.tindertp.chatListTools.CustomAdapter.updateBold (List< RowItem > *newRows,* int *index,* boolean *isBold*) [inline]

Actualiza a Negrita el nuevo mensaje.

3.13.3 Member Data Documentation

3.13.3.1 int com.example.sebastian.tindertp.chatListTools.CustomAdapter.updatedIndex [private]

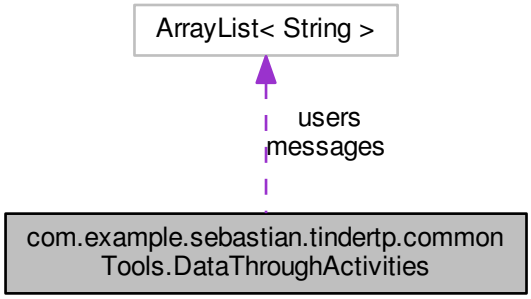
Indece de uina posicion actualizada

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/chatListTools/CustomAdapter.java

3.14 com.example.sebastian.tindertp.commonTools.DataThroughActivities Class Reference

Collaboration diagram for com.example.sebastian.tindertp.commonTools.DataThroughActivities:



Classes

- class **SingletonHelper**

Public Member Functions

- void **setMessages** (ArrayList< String > users, ArrayList< String > messages)
- void **deleteMssg** ()
- void **deleteMssg** (String userName)
- ArrayList< String > **getMessages** ()
- ArrayList< String > **getUsers** ()
- boolean **hasMessages** ()
- boolean **areTwoDifferntUsers** ()

Static Public Member Functions

- static DataThroughActivities **getInstance** ()

Private Attributes

- ArrayList< String > **messages** = null
- ArrayList< String > **users** = null

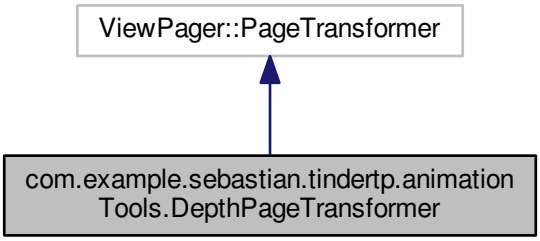
The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/commonTools/DataThroughActivities.java

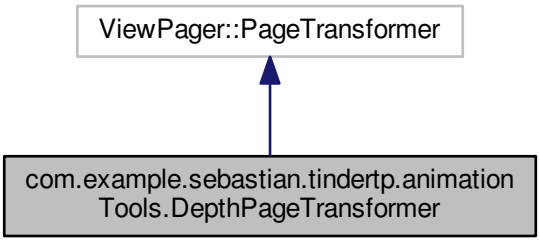
3.15 com.example.sebastian.tindertp.animationTools.DepthPageTransformer Class Reference

Implementa la animacion de solapado de imagenes.

Inheritance diagram for com.example.sebastian.tindertp.animationTools.DepthPageTransformer:



Collaboration diagram for com.example.sebastian.tindertp.animationTools.DepthPageTransformer:



Public Member Functions

- void transformPage (View view, float position)

  Posición de la página relativa a la posición actual frente-y-centro del ViewPager.

Static Private Attributes

- static final float **MIN_SCALE** = 0.75f

3.15.1 Detailed Description

Implementa la animacion de solapado de imagenes.

La pagina de atras con un grado de transparencia y escalada y la de adelante normal.

3.15.2 Member Function Documentation

3.15.2.1 void com.example.sebastian.tindertp.animationTools.DepthPageTransformer.transformPage (View *view,* float *position*) [inline]

Posición de la página relativa a la posición actual frente-y-centro del ViewPager.

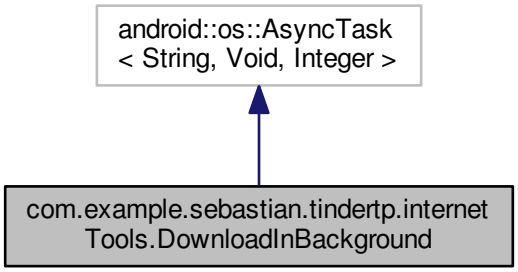
0 = frente y centro. 1 la paigna se va a la derecha, y -1 la pagina se va a la izquierda.

The documentation for this class was generated from the following file:

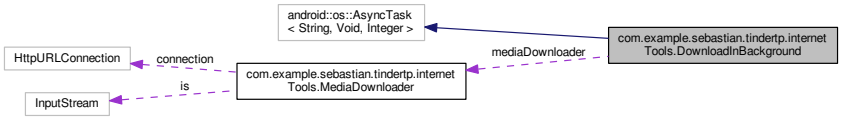
- app/src/main/java/com/example/sebastian/tindertp/animationTools/DepthPageTransformer.java

3.16 com.example.sebastian.tindertp.internetTools.DownloadInBackground Class Reference

Inheritance diagram for com.example.sebastian.tindertp.internetTools.DownloadInBackground:



Collaboration diagram for com.example.sebastian.tindertp.internetTools.DownloadInBackground:



Public Member Functions

- **DownloadInBackground** (MediaDownloader mediaDownloader)

Protected Member Functions

- Integer **doInBackground** (String... urls)
- void **onPostExecute** (Integer result)

Private Attributes

- MediaDownloader **mediaDownloader**

Static Private Attributes

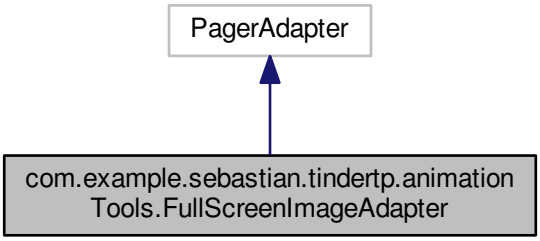
- static final String **CONNECTION** = "Connection"

The documentation for this class was generated from the following file:

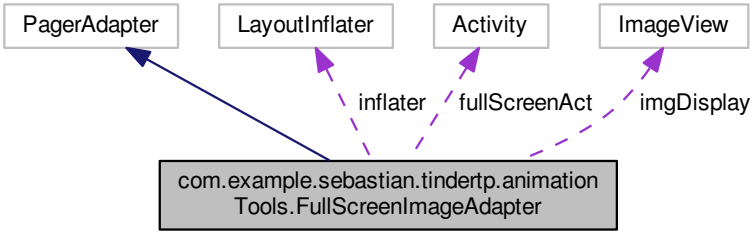
- app/src/main/java/com/example/sebastian/tindertp/internetTools/DownloadInBackground.java

3.17 com.example.sebastian.tindertp.animationTools.FullScreenImageAdapter Class Reference

Inheritance diagram for com.example.sebastian.tindertp.animationTools.FullScreenImageAdapter:



Collaboration diagram for com.example.sebastian.tindertp.animationTools.FullScreenImageAdapter:



Public Member Functions

- **FullScreenImageAdapter** (Activity activity, String[ ] imgFile)
- int **getCount** ()
- boolean **isViewFromObject** (View view, Object object)
- Object **instantiateItem** (ViewGroup container, int position)
- void **destroyItem** (ViewGroup container, int position, Object object)

Private Member Functions

- void **setImgViewPager** (View viewLayout, int position)

Private Attributes

- Activity **fullScreenAct**
- String [ ] **imgFiles**
- LayoutInflater **inflater**

3.17.1 Detailed Description

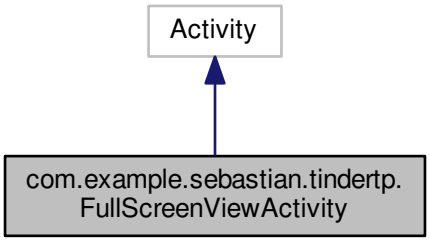
Adaptador entre PageView y ImageView

The documentation for this class was generated from the following file:

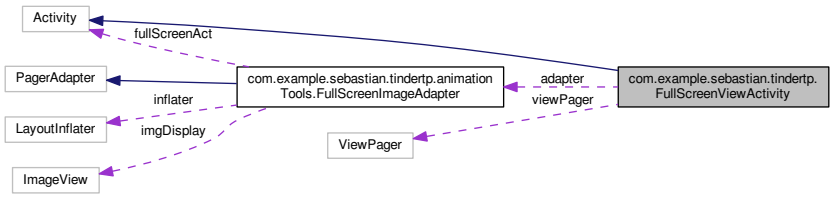
- app/src/main/java/com/example/sebastian/tindertp/animationTools/FullScreenImageAdapter.java

3.18 com.example.sebastian.tindertp.FullScreenViewActivity Class Reference

Inheritance diagram for com.example.sebastian.tindertp.FullScreenViewActivity:



Collaboration diagram for com.example.sebastian.tindertp.FullScreenViewActivity:



Public Member Functions

- void onBackPressed ()

Protected Member Functions

- void **onCreate** (Bundle savedInstanceState)
- void **onResume** ()
- void **onPause** ()

Private Member Functions

- void hideClockBateryBar ()
- void getDataFromMatchingActivity ()

Private Attributes

- FullScreenImageAdapter **adapter**
- ViewPager **viewPager**
- int **firtPosition**
- String [ ] **imgFiles**

3.18.1 Member Function Documentation

3.18.1.1 void com.example.sebastian.tindertp.FullScreenViewActivity.getDataFromMatchingActivity ( ) [inline], [private]

Obtiene datos pasados por Intent.

3.18.1.2 void com.example.sebastian.tindertp.FullScreenViewActivity.hideClockBateryBar ( ) [inline], [private]

Oculta la barra de estados en fullscreen.

3.18.1.3 void com.example.sebastian.tindertp.FullScreenViewActivity.onBackPressed ( ) [inline]

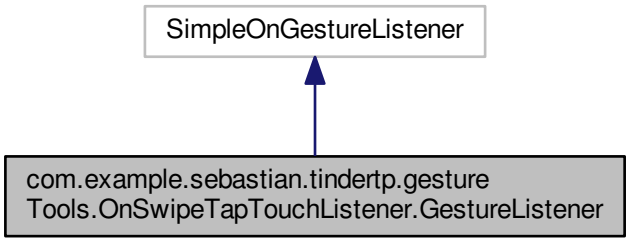
Al volver a la activitidad que la llamo, setea la nueva posicion de la imagen si esta cambió.

The documentation for this class was generated from the following file:

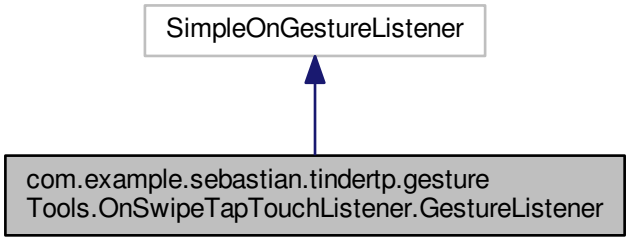
- app/src/main/java/com/example/sebastian/tindertp/FullScreenViewActivity.java

3.19 com.example.sebastian.tindertp.gestureTools.OnSwipeTapTouchListener.GestureListener Class Reference

Inheritance diagram for com.example.sebastian.tindertp.gestureTools.OnSwipeTapTouchListener.GestureListener:



Collaboration diagram for com.example.sebastian.tindertp.gestureTools.OnSwipeTapTouchListener.GestureListener:



Public Member Functions

- boolean **onDown** (MotionEvent e)
- boolean onSingleTapConfirmed (MotionEvent e)
- boolean **onFling** (MotionEvent e1, MotionEvent e2, float velocityX, float velocityY)

Static Private Attributes

- static final int **SWIPE_THRESHOLD** = 100
- static final int **SWIPE_VELOCITY_THRESHOLD** = 100

3.19.1 Member Function Documentation

3.19.1.1 boolean com.example.sebastian.tindertp.gestureTools.OnSwipeTapTouchListener.GestureListener.onSingleTapConfirmed (MotionEvent *e*) [inline]

Inicia fullscreenActivity y le pasa los directorios de las imagenes y la posicion actual de las imagenes.

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/gestureTools/OnSwipeTapTouchListener.java

3.20 com.example.sebastian.tindertp.commonTools.HeaderBuilder Class Reference

Static Public Member Functions

- static Map< String, String > **forRegister** (String user, String pass, String tokenGCM)
- static Map< String, String > **forLoadMessages** (String token, String user, String chatName, int desde)
- static Map< String, String > **forLoadOneMessage** (String token, String user, String chatName, int desde)
- static Map< String, String > **forSendMessage** (String token, String user, String chatName)

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/commonTools/HeaderBuilder.java

3.21 com.example.sebastian.tindertp.ImageTools.ImageBase64 Class Reference

Static Public Member Functions

- static String **encodeToBase64** (Bitmap image, Bitmap.CompressFormat compressFormat)
- static Bitmap **decodeBase64** (String input)

Static Private Attributes

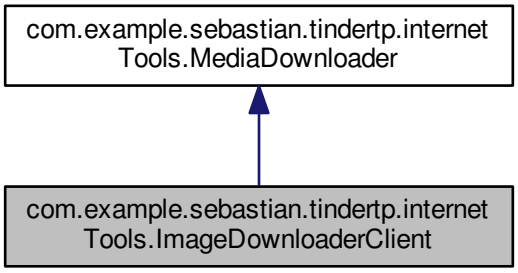
- static final int **quality** = 100

The documentation for this class was generated from the following file:

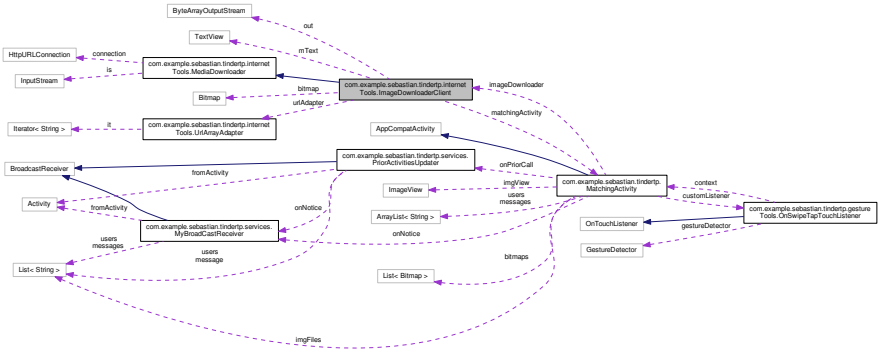
- app/src/main/java/com/example/sebastian/tindertp/ImageTools/ImageBase64.java

3.22 com.example.sebastian.tindertp.internetTools.ImageDownloaderClient Class Reference

Inheritance diagram for com.example.sebastian.tindertp.internetTools.ImageDownloaderClient:



Collaboration diagram for com.example.sebastian.tindertp.internetTools.ImageDownloaderClient:



Public Member Functions

- **ImageDownloaderClient** (MatchingActivity matchingA, TextView mtext)
- void **runInBackground** ()
- boolean **downloadComplete** ()

Private Attributes

- final String **TAG** = this.getClass().getSimpleName()
- Bitmap **bitmap**
- int **id**
- ByteArrayOutputStream **out**
- MatchingActivity **matchingActivity**
- UrlArrayAdapter **urlAdapter**

Additional Inherited Members

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/internetTools/ImageDownloaderClient.java

3.23 com.example.sebastian.tindertp.commonTools.ImagesPosition Class Reference

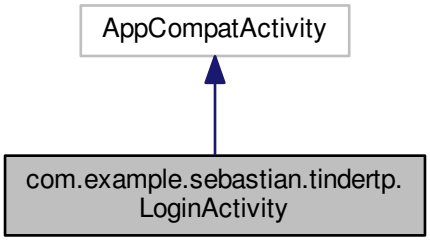
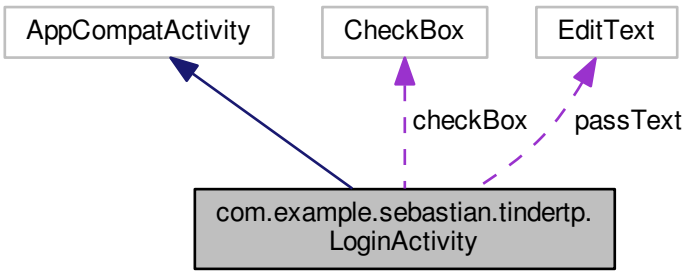
3.26 com.example.sebastian.tindertp.LoginActivity Class Reference

Inheritance diagram for com.example.sebastian.tindertp.LoginActivity:



Collaboration diagram for com.example.sebastian.tindertp.LoginActivity:



Public Member Functions

- void loginL (View v)
- boolean **onCreateOptionsMenu** (Menu menu)
- boolean **onOptionsItemSelected** (MenuItem item)

Protected Member Functions

- void **onCreate** (Bundle savedInstanceState)

Private Attributes

- EditText passText
- CheckBox checkBox

3.26.1 Detailed Description

Actividad de logeo en el sistema.

3.26.2 Member Function Documentation

3.26.2.1 void com.example.sebastian.tindertp.LoginActivity.loginL (View *v*) [inline]

Listener del boton Login. Si los campos de entrada son validos se procede hacer el logeo. Si no hay URL seteada se llama a UrlActivity, terminando la actual.

3.26.3 Member Data Documentation

3.26.3.1 CheckBox com.example.sebastian.tindertp.LoginActivity.checkBox [private]

Chech box para mostrar o enmascarar la contraseña.

3.26.3.2 EditText com.example.sebastian.tindertp.LoginActivity.passText [private]

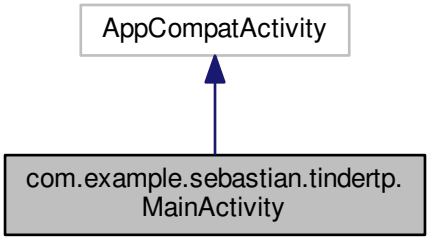
Campo de Password.

The documentation for this class was generated from the following file:

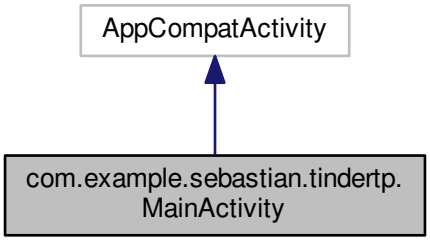
- app/src/main/java/com/example/sebastian/tindertp/LoginActivity.java

3.27 com.example.sebastian.tindertp.MainActivity Class Reference

Inheritance diagram for com.example.sebastian.tindertp.MainActivity:



Collaboration diagram for com.example.sebastian.tindertp.MainActivity:



Protected Member Functions

- void **onCreate** (Bundle savedInstanceState)

3.27.1 Detailed Description

Actividad Launcher. Splash Screen. Salta las actividades que puede esquivar, como UrlActivity, SelectLoginOr↩ RegisterAcivity, LoginActivity o RegistryActivity

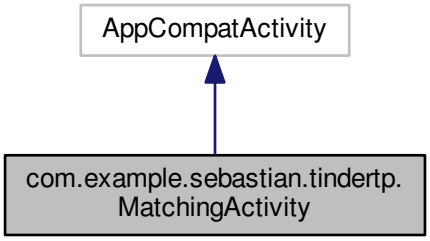
The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/MainActivity.java

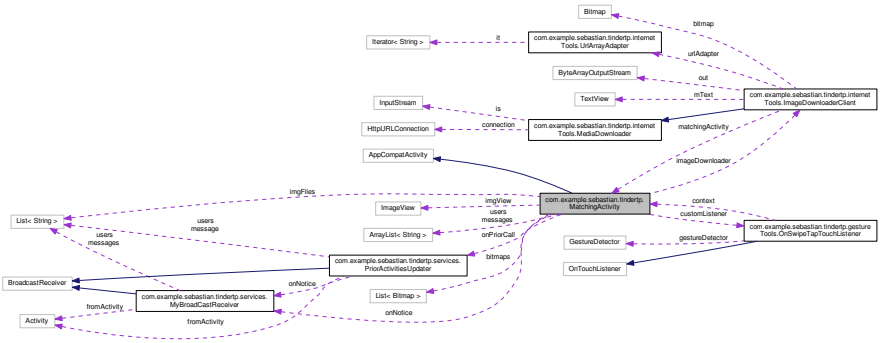
3.28 com.example.sebastian.tindertp.MatchingActivity Class Reference

Activity donde se matchean las personas.

Inheritance diagram for com.example.sebastian.tindertp.MatchingActivity:



Collaboration diagram for com.example.sebastian.tindertp.MatchingActivity:



Public Member Functions

- void **sendLike** (View v)
- void **sendDislike** (View v)
- void goToProfile (View v)
- void **goToMesseges** (View v)
- void onResume ()

  Actualiza la posicion de la imagen al retornar a la actividad.
- ImageView **getImgView** ()
- List< String > **getImgFiles** ()
- List< Bitmap > **getBitmaps** ()
- void onBackgroundTaskDataObtained (Bitmap bitmap, String file)

- ArrayList< String > **messages**
- ArrayList< String > **users**
- MyBroadCastReceiver **onNotice**
- PriorActivitiesUpdater **onPriorCall**
- List< Bitmap > **bitmaps**
- ImageView **imgView**
- boolean **firstTime**
- List< String > **imgFiles**
- int **imgPosition**
- ImageDownloaderClient **imageDownloader**
- OnSwipeTapTouchListener customListener

3.28.1 Detailed Description

Activity donde se matchean las personas.

3.28.2 Member Function Documentation

3.28.2.1 void com.example.sebastian.tindertp.MatchingActivity.goToProfile (View *v*) [inline]

Listener de boton Info (i) que va al perfil del usuario en vista. Solo si tiene la primer imagen descargada, que es la del perfil.

3.28.2.2 void com.example.sebastian.tindertp.MatchingActivity.onBackgroundTaskDataObtained (Bitmap *bitmap,* String *file*) [inline]

Cuando la descarga de una imagen se completo se obtiene los datos y setea la imagen.

3.28.2.3 void com.example.sebastian.tindertp.MatchingActivity.onCreate (Bundle *savedInstanceState*) [inline], [protected]

En la creacion se empiezan a descargas las 3 primeras imagenes o menos.

3.28.2.4 void com.example.sebastian.tindertp.MatchingActivity.onResume ( ) [inline]

Actualiza la posicion de la imagen al retornar a la actividad.

Cuando se retorna a la actividad si tiene imagenes en bitmaps, se llama al singleton ImagesPosition, que de no estar seteado devuelve la posicion actual de las imagenes y si esta seteado es porque se ingreso en Fullscreen↩ Activity y se cambio el foco de la imagen. Setea la nueva imagen y si esta en la anteultima posicion de las imagenes ya descargadas se descarga la siguiente.

3.28.3 Member Data Documentation

3.28.3.1 OnSwipeTapTouchListener com.example.sebastian.tindertp.MatchingActivity.customListener [private]

Listener para fling y tap.

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/MatchingActivity.java

3.29 com.example.sebastian.tindertp.internetTools.MediaDownloader Class Reference

3.29.1 Detailed Description

Medio de descarga de informacion.

3.29.2 Member Function Documentation

3.29.2.1 boolean com.example.sebastian.tindertp.internetTools.MediaDownloader.isHTTPFormat (String *url*) [inline], [private]

Si tiene `http://`

3.29.2.2 abstract void com.example.sebastian.tindertp.internetTools.MediaDownloader.runInBackground ( ) [abstract]

Se fija la conexion de red y internet.

3.29.3 Member Data Documentation

3.29.3.1 String com.example.sebastian.tindertp.internetTools.MediaDownloader.path [protected]

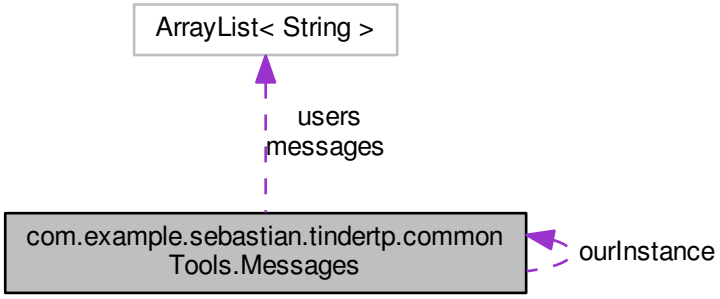
/test, /login /registro

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/internetTools/MediaDownloader.java

3.30 com.example.sebastian.tindertp.commonTools.Messages Class Reference

Collaboration diagram for com.example.sebastian.tindertp.commonTools.Messages:



Public Member Functions

- void **addMessage** (String user, String mssg)
- void **clear** ()
- int **size** ()
- String **get** (int i)
- ArrayList< String > **getMessages** ()
- ArrayList< String > **getUsers** ()

Static Public Member Functions

- static Messages **getInstance** ()

Private Attributes

- ArrayList< String > **messages**
- ArrayList< String > **users**

Static Private Attributes

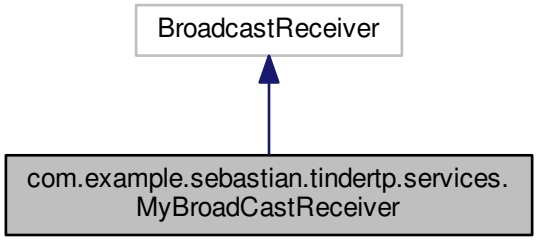
- static Messages **ourInstance** = null

The documentation for this class was generated from the following file:

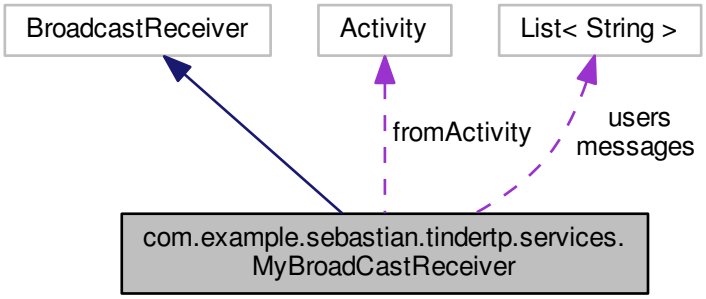
- app/src/main/java/com/example/sebastian/tindertp/commonTools/Messages.java

3.31 com.example.sebastian.tindertp.services.MyBroadCastReceiver Class Reference

Inheritance diagram for com.example.sebastian.tindertp.services.MyBroadCastReceiver:



Collaboration diagram for com.example.sebastian.tindertp.services.MyBroadCastReceiver:



Public Member Functions

- void **setUsersAndMessages** (List< String > users, List< String > messages)
- int **getNotificationCount** ()
- void **setNotificationCount** (int notificationCount)
- void **setLessNotificationCount** (int less)
- **MyBroadCastReceiver** (Activity fromActivity)
- void **onReceive** (Context context, Intent intent)

Private Attributes

- List< String > **messages**
- List< String > **users**

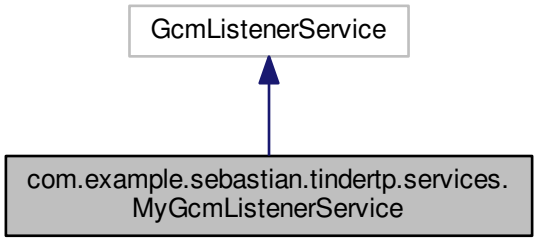
- int **notificationCount**
- Activity **fromActivity**

The documentation for this class was generated from the following file:

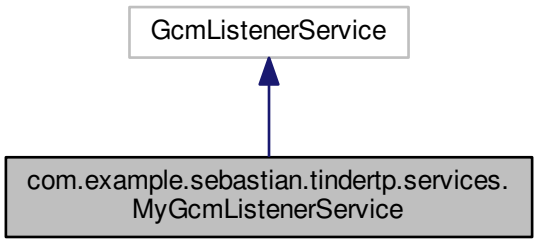
- app/src/main/java/com/example/sebastian/tindertp/services/MyBroadCastReceiver.java

3.32 com.example.sebastian.tindertp.services.MyGcmListenerService Class Reference

Inheritance diagram for com.example.sebastian.tindertp.services.MyGcmListenerService:



Collaboration diagram for com.example.sebastian.tindertp.services.MyGcmListenerService:



Public Member Functions

- void onMessageReceived (String from, Bundle data)

Private Member Functions

- void sendNotification (String fromUser, String message)

Static Private Member Functions

- static void **update** (Context context, String from, String message, String type)

Static Private Attributes

- static final String **TAG** = "MyGcmListenerService"

3.32.1 Member Function Documentation

3.32.1.1 void com.example.sebastian.tindertp.services.MyGcmListenerService.onMessageReceived (String *from,* Bundle *data*) [inline]

Es llamado cuando un mensaje es recibido.

Parameters

from	SenderID of the sender.
data	Data bundle containing message data as key/value pairs. For Set of keys use data.keySet().

3.32.1.2 void com.example.sebastian.tindertp.services.MyGcmListenerService.sendNotification (String *fromUser,* String *message*) [inline],[private]

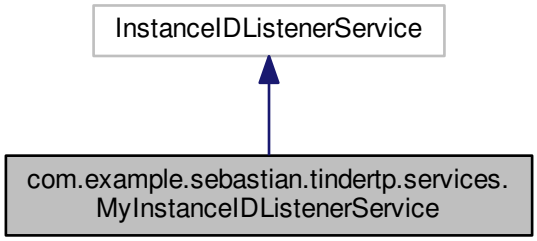
Crea notificaciones y hace un pendingIntent que se usa si la notificacion es clickeada.

The documentation for this class was generated from the following file:

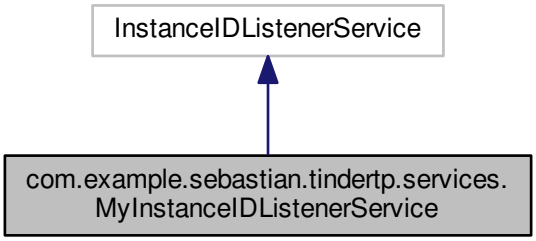
- app/src/main/java/com/example/sebastian/tindertp/services/MyGcmListenerService.java

3.33 com.example.sebastian.tindertp.services.MyInstanceIDListenerService Class Reference

Inheritance diagram for com.example.sebastian.tindertp.services.MyInstanceIDListenerService:



Collaboration diagram for com.example.sebastian.tindertp.services.MyInstanceIDListenerService:



Public Member Functions

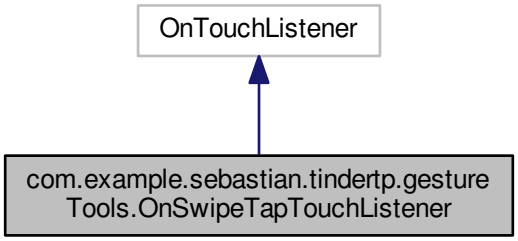
- void **onTokenRefresh** ()

The documentation for this class was generated from the following file:

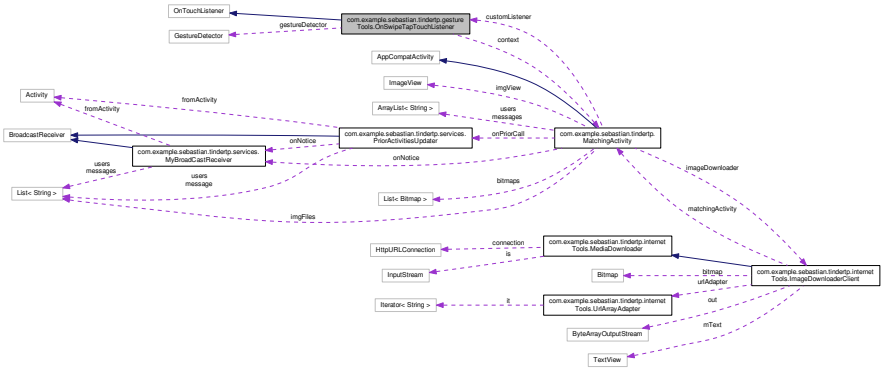
- app/src/main/java/com/example/sebastian/tindertp/services/MyInstanceIDListenerService.java

3.34 com.example.sebastian.tindertp.gestureTools.OnSwipeTapTouchListener Class Reference

Inheritance diagram for com.example.sebastian.tindertp.gestureTools.OnSwipeTapTouchListener:



Collaboration diagram for com.example.sebastian.tindertp.gestureTools.OnSwipeTapTouchListener:



Classes

- class GestureListener

Public Member Functions

- **OnSwipeTapTouchListener** (MatchingActivity ctx)
- boolean **onTouch** (View v, MotionEvent event)
- void **setPosition** (int newImgPos)

Protected Member Functions

- void **setImgViewAndAnimation** ()

Protected Attributes

- MatchingActivity **context**
- int **i**

Private Member Functions

- void **onSwipeRight** ()
- void onSwipeLeft ()

Private Attributes

- final GestureDetector **gestureDetector**

3.34.1 Member Function Documentation

3.34.1.1 void com.example.sebastian.tindertp.gestureTools.OnSwipeTapTouchListener.onSwipeLeft ( ) [inline], [private]

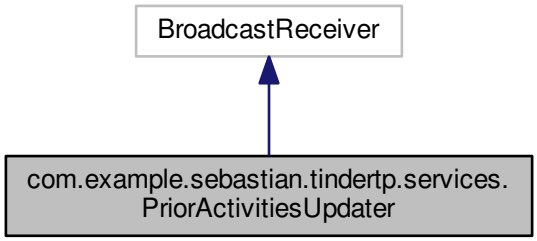
Cambia la imagen a la siguiente a la izquierda y si no esta completa la descarga y esta en la anteultima posicion, descarga la siguiente imagen.

The documentation for this class was generated from the following file:

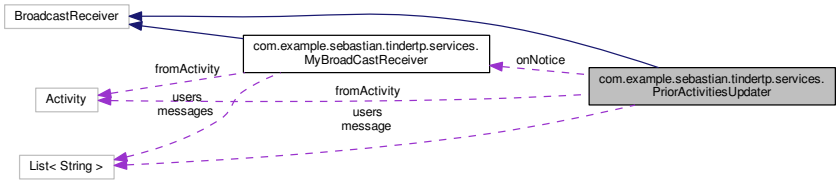
- app/src/main/java/com/example/sebastian/tindertp/gestureTools/OnSwipeTapTouchListener.java

3.35 com.example.sebastian.tindertp.services.PriorActivitiesUpdater Class Reference

Inheritance diagram for com.example.sebastian.tindertp.services.PriorActivitiesUpdater:



Collaboration diagram for com.example.sebastian.tindertp.services.PriorActivitiesUpdater:



Public Member Functions

- void **setUsersAndMessage** (List< String > users, List< String > mssg)
- boolean **areMessagesReaded** ()
- void **setAreMessagesReaded** (boolean areMessagesReaded)
- **PriorActivitiesUpdater** (Activity fromActivity, MyBroadCastReceiver onNotice)
- void **onReceive** (Context context, Intent intent)

Private Member Functions

- void **deleteMessages** (String user)

Private Attributes

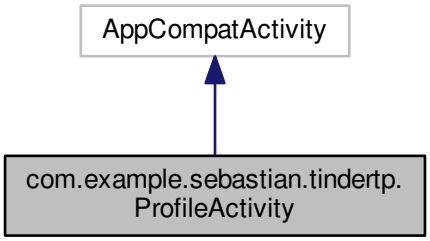
- Activity **fromActivity**
- boolean **areMessagesReaded**

The documentation for this class was generated from the following file:

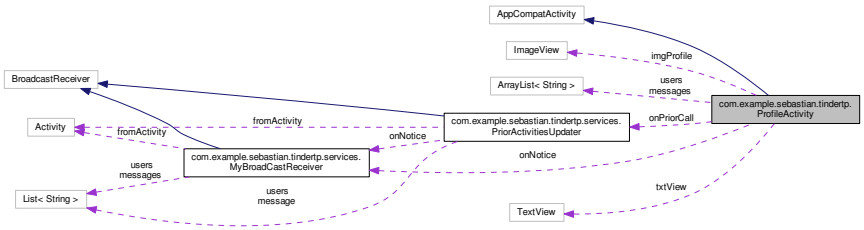
- app/src/main/java/com/example/sebastian/tindertp/services/PriorActivitiesUpdater.java

3.36 com.example.sebastian.tindertp.ProfileActivity Class Reference

Inheritance diagram for com.example.sebastian.tindertp.ProfileActivity:



Collaboration diagram for com.example.sebastian.tindertp.ProfileActivity:



Public Member Functions

- boolean **onCreateOptionsMenu** (Menu menu)
- void **goToMesseges** (View v)
- boolean **onOptionsItemSelected** (MenuItem item)

Protected Member Functions

- void **onCreate** (Bundle savedInstanceState)

Private Member Functions

- void **setImgProfile** (String imgFile)
- void **getProfileImageIntoView** ()
- void **getNotificationCount** ()

Private Attributes

- ImageView **imgProfile**
- TextView txtView
- ArrayList< String > **messages**
- ArrayList< String > **users**
- MyBroadCastReceiver **onNotice**
- PriorActivitiesUpdater **onPriorCall**

3.36.1 Member Data Documentation

3.36.1.1 TextView com.example.sebastian.tindertp.ProfileActivity.txtView [private]

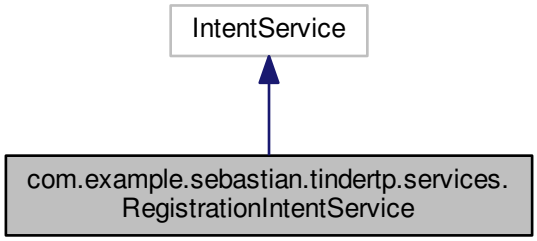
En caso de error.

The documentation for this class was generated from the following file:

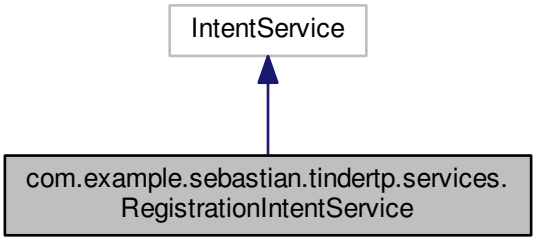
- app/src/main/java/com/example/sebastian/tindertp/ProfileActivity.java

3.37 com.example.sebastian.tindertp.services.RegistrationIntentService Class Reference

Inheritance diagram for com.example.sebastian.tindertp.services.RegistrationIntentService:



Collaboration diagram for com.example.sebastian.tindertp.services.RegistrationIntentService:



Protected Member Functions

- void **onHandleIntent** (Intent intent)

Static Private Attributes

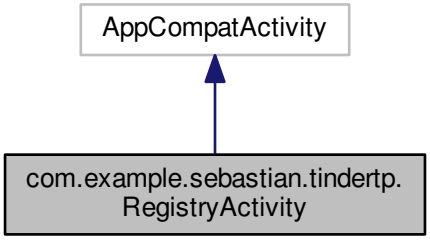
- static final String **TAG** = "RegIntentService"

The documentation for this class was generated from the following file:

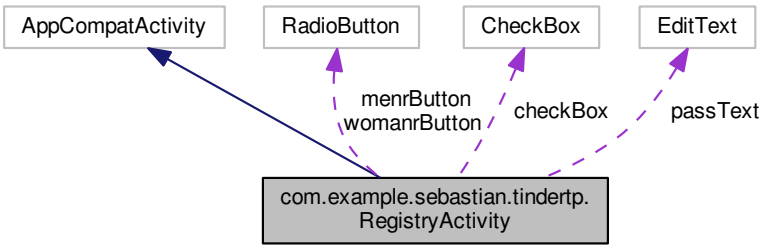
- app/src/main/java/com/example/sebastian/tindertp/services/RegistrationIntentService.java

3.38 com.example.sebastian.tindertp.RegistryActivity Class Reference

Inheritance diagram for com.example.sebastian.tindertp.RegistryActivity:



Collaboration diagram for com.example.sebastian.tindertp.RegistryActivity:



Public Member Functions

- void **salir2** (View view)
- void **goToInterests** (View v)
- boolean **onCreateOptionsMenu** (Menu menu)
- boolean **onOptionsItemSelected** (MenuItem item)

Protected Member Functions

- void **onCreate** (Bundle savedInstanceState)

Private Member Functions

- RadioButton **opposite** (RadioButton rButton)
- void **setOnCheckedChangeListener** (final RadioButton rButton)

Private Attributes

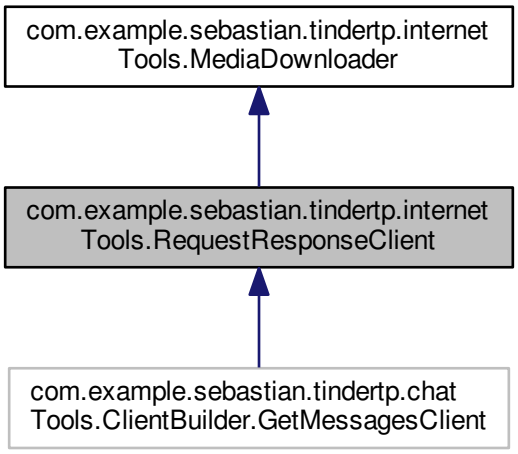
- EditText **passText**
- CheckBox **checkBox**
- RadioButton **menrButton**
- RadioButton **womanrButton**

The documentation for this class was generated from the following file:

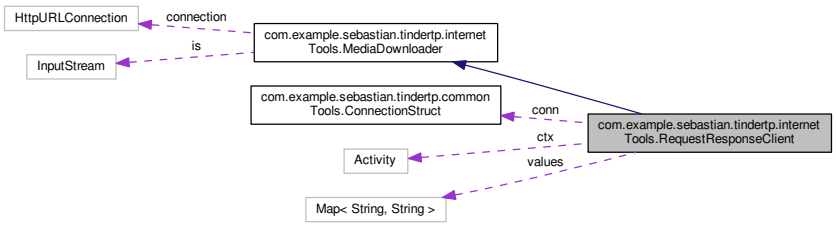
- app/src/main/java/com/example/sebastian/tindertp/RegistryActivity.java

3.39 com.example.sebastian.tindertp.internetTools.RequestResponseClient Class Reference

Inheritance diagram for com.example.sebastian.tindertp.internetTools.RequestResponseClient:



Collaboration diagram for com.example.sebastian.tindertp.internetTools.RequestResponseClient:



Public Member Functions

- **RequestResponseClient** (Activity ctx, ConnectionStruct conn, Map< String, String > values)
- void **addBody** (String body)
- void **runInBackground** ()

Protected Member Functions

- abstract void **getJson** () throws IOException
- String **readIt** () throws IOException
- abstract void **onPostExec** ()
- abstract void **showText** (String message)

Protected Attributes

- Activity **ctx**
- boolean **badResponse**
- String **jsonString**

Private Attributes

- ConnectionStruct **conn**
- Map< String, String > **values**
- String **body**
- boolean **hasBody**

Additional Inherited Members

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/internetTools/RequestResponseClient.java

3.40 com.example.sebastian.tindertp.chatListTools.RowItem Class Reference

Public Member Functions

- **RowItem** (String userName, int profilePic, String message)
- String **getUserName** ()
- void **setUserName** (String userName)
- int **getProfilePic** ()
- void **setProfilePic** (int profilePic)
- String **getLastMessage** ()
- void **setLastMessage** (String lastMessage)

Private Attributes

- String **userName**
- int **profilePic**
- String **lastMessage**

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/chatListTools/RowItem.java

3.41 com.example.sebastian.tindertp.diskTools.SaveFileInBackground Class Reference

Static Public Member Functions

- static void **writeToDisk** (@NonNull final File imageFile, @NonNull final Bitmap image, @NonNull final Bitmap.CompressFormat format, boolean shouldOverwrite)

Static Private Attributes

- static final String **DISK_TAG** ="SavingFile"

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/diskTools/SaveFileInBackground.java

3.42 com.example.sebastian.tindertp.chatTools.ScrollListMaintainer Class Reference

Static Public Member Functions

- static void **maintainScrollPosition** (final ListView list, final int positionToPreserve)

3.42.1 Detailed Description

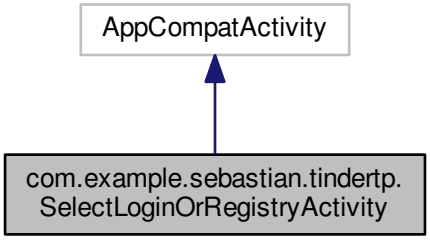
Mantiene la posicion del Scroll Si no se usa esto, al agregar un nuevo mensaje, el scroll se va para abajo

The documentation for this class was generated from the following file:

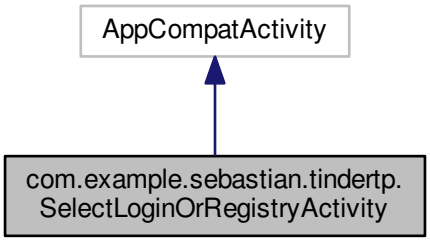
- app/src/main/java/com/example/sebastian/tindertp/chatTools/ScrollListMaintainer.java

3.43 com.example.sebastian.tindertp.SelectLoginOrRegistryActivity Class Reference

Inheritance diagram for com.example.sebastian.tindertp.SelectLoginOrRegistryActivity:



Collaboration diagram for com.example.sebastian.tindertp.SelectLoginOrRegistryActivity:



Public Member Functions

- void goToLogin (View v)
- void goToRegistry (View v)
- boolean **onCreateOptionsMenu** (Menu menu)
- boolean **onOptionsItemSelected** (MenuItem item)

Protected Member Functions

- void **onCreate** (Bundle savedInstanceState)

3.43.1 Member Function Documentation

3.43.1.1 void com.example.sebastian.tindertp.SelectLoginOrRegistryActivity.goToLogin (View *v*) [inline]

Listener de boton que va a LoginActivity.

3.43.1.2 void com.example.sebastian.tindertp.SelectLoginOrRegistryActivity.goToRegistry (View *v*) [inline]

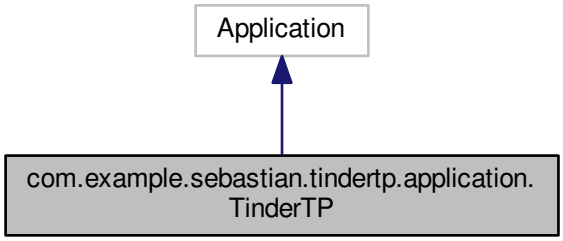
Listener de boton que va a RegistryActivity.

The documentation for this class was generated from the following file:

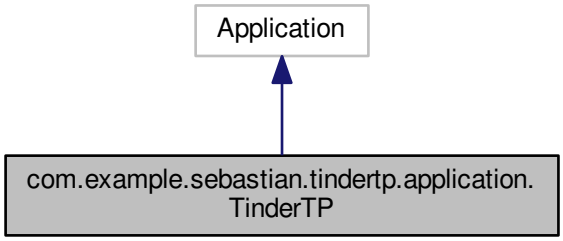
- app/src/main/java/com/example/sebastian/tindertp/SelectLoginOrRegistryActivity.java

3.44 com.example.sebastian.tindertp.application.TinderTP Class Reference

Inheritance diagram for com.example.sebastian.tindertp.application.TinderTP:



Collaboration diagram for com.example.sebastian.tindertp.application.TinderTP:



Public Member Functions

- String **getUser** ()
- void **setUser** (String user)
- String **getToken** ()
- void **setToken** (String tk)
- String **getUrl** ()
- void **setUrl** (String newUrl)

Static Public Member Functions

- static void **chatResumed** ()
- static void **chatPaused** ()
- static void **updateChatName** (String chName)
- static boolean **isTheSameChat** (String chName)

Private Attributes

- String **url**
- String **token**
- String **user**

Static Private Attributes

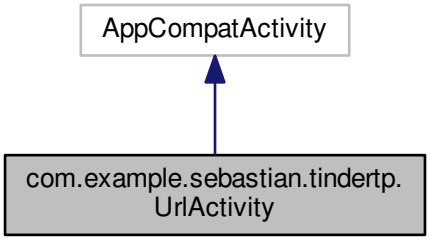
- static boolean **chatVisible**
- static String **chatName**

The documentation for this class was generated from the following file:

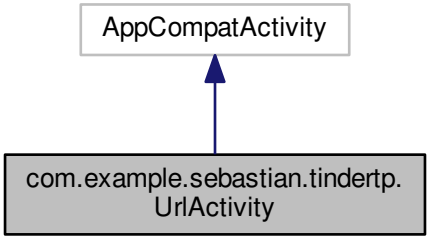
- app/src/main/java/com/example/sebastian/tindertp/application/TinderTP.java

3.45 com.example.sebastian.tindertp.UrlActivity Class Reference

Inheritance diagram for com.example.sebastian.tindertp.UrlActivity:



Collaboration diagram for com.example.sebastian.tindertp.UrlActivity:



Public Member Functions

- void **sendRequest** (View view)
- void **salir** (View view)

Protected Member Functions

- void **onCreate** (Bundle savedInstanceState)

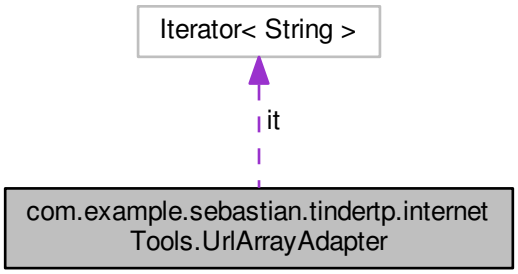
The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/UrlActivity.java

3.46 com.example.sebastian.tindertp.internetTools.UrlArrayAdapter Class Reference

Adaptador del array de urls.

Collaboration diagram for com.example.sebastian.tindertp.internetTools.UrlArrayAdapter:



Public Member Functions

- **UrlArrayAdapter** (List< String > urls)
- boolean **hasNext** ()
- String **next** ()
- boolean **downloadComplete** ()

Private Attributes

- int end
- Iterator< String > **it**
- int i

3.46.1 Detailed Description

Adaptador del array de urls.

Cambia la funcionalidad del recorrido del array, para que primero descarga las primeras 3 urls y depues descargue la siguiente solo si la imagen actual apunta a la a la anteultima posicion del array.

3.46.2 Member Data Documentation

3.46.2.1 int com.example.sebastian.tindertp.internetTools.UrlArrayAdapter.end [private]

Numero para descargar las primeras imagenes.

3.46.2.2 int com.example.sebastian.tindertp.internetTools.UrlArrayAdapter.i [private]

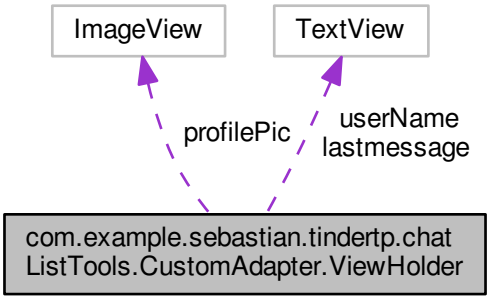
posicion actual de imagenes descargas en el array.

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/internetTools/UrlArrayAdapter.java

3.47 com.example.sebastian.tindertp.chatListTools.CustomAdapter.ViewHolder Class Reference

Collaboration diagram for com.example.sebastian.tindertp.chatListTools.CustomAdapter.ViewHolder:

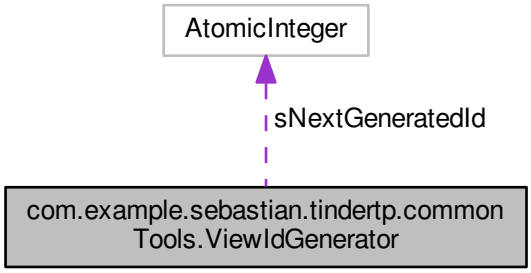


The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/chatListTools/CustomAdapter.java

3.48 com.example.sebastian.tindertp.commonTools.ViewIdGenerator Class Reference

Collaboration diagram for com.example.sebastian.tindertp.commonTools.ViewIdGenerator:



Static Public Member Functions

- static int **generateViewId** ()

Static Private Attributes

- static final AtomicInteger **sNextGeneratedId** = new AtomicInteger(1)

The documentation for this class was generated from the following file:

- app/src/main/java/com/example/sebastian/tindertp/commonTools/ViewIdGenerator.java
