

LocationListener

```
classDiagram
    class LocationGPSListener["com.example.sebastian.tindertp.services.LocationGPSListener"]
    class LocationListener
    LocationGPSListener --|> LocationListener
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box representing the subclass, 'com.example.sebastian.tindertp.services.LocationGPSListener'. A blue arrow points upwards from this box to a white box at the top representing the superclass, 'LocationListener'.

com.example.sebastian.tindertp.services.
LocationGPSListener
